

inspiration and proven methods for self-improvement in *The Wisdom of Walk-Ons: 7 Winning Strategies for College, Business and Life*.

This innovative book tells the true stories of three unrecruited college football players who – against overwhelming odds – played for some of the greatest programs and Hall of Fame coaches in history: the Alabama Crimson Tide with Paul "Bear" Bryant, the Notre Dame Fighting Irish with Dan Devine, and the Southern California Trojans with John Robinson. Former walk-ons Gordon Adams, Bob Bleyer, and Alan Pizzitola graduated from these storied universities in the 1970s and '80s with academic honors, national championship rings, practical skills, and a collection of winning strategies that helped them persevere and succeed in business and life in their 20s, 30s, 40s, and 50s.

These success stories are not the standard fare found in many books about Fortune 500 CEOs, professional athletes, or other elite figures that readers may find interesting but out of reach. Millions of Americans can relate to these underdog walk-ons who succeeded in college and then corporate, entrepreneurial, and community businesses across the country.

"I haven't seen another book like it. You can't help but be inspired and motivated after reading it," said Bobby Bowden, the second-winningest coach in major college football history.

Mark Reinecke, Professor of Psychiatry & Behavioral Sciences and Chief Psychologist at Northwestern University's Feinberg School of Medicine added: "Every worthwhile pursuit requires adaptability and resilience. Using life histories of walk-on college athletes as a foundation, Paul Corona derives simple strategies for success. Pithy, practical and truly engaging, *The Wisdom of Walk-Ons* presents methods we all can use in school and throughout life. We're all walk-ons at one point or another."
